

Ecolabel compliant solutions for your exterior facade paint

Nowadays, requirements of Ecolabel compliant formulations are becoming more and more important and lead to frequent changes. With the broad product portfolio from Evonik Coating Additives you will be able to face those challenges.

WETTING AGENT

SURFYNOL® AD01

- Multifunctional additive based on Gemini surfactant technology
- Excellent dynamic pigment and substrate wetting combined with good defoaming properties
- Acts as coalescing agent, suitable for low VOC paints

WETTING AND DISPERSING ADDITIVES

TEGO® Dispers 747 W

- Very efficient wetting and dispersing additive for waterborne pigment concentrates and direct grind, suitable for low VOC and ecolabel compliant paints
- Effective grinding of inorganic pigments and fillers leads to paint formulations with excellent colorant acceptance

ZETASPERSE® 179

- Shows outstanding color strength development as co-dispersant when used in combination with an anionic polymer
- Improves color acceptance for tinting systems when used in the direct grind of a base paint

HYDROPHOBIZATION AGENTS

TEGO® Phobe 1659

- Silicone resin emulsion for low dirt pick-up wall paints
- Provides excellent early water resistance
- Outstanding reduction of the water uptake at lowest dosage

TEGO® Phobe 1409

- Amino siloxane emulsion with a broad application range
- Very good early water resistance and water beading effect
- Fast drying limits algae and microorganism growth

FUNCTIONAL EXTENDER

- Titanium dioxide [0.3 µm]
- ★ SIPERNAT® 820 A

SIPERNAT® 820 A

- Aluminum silicate used as a partial replacement for titanium dioxide
- Improved hiding power and wet scrub resistance

DEFOAMER

TEGO® Foamex 10

- Highly efficient defoamer for mid to high PVC formulations
- Suitable as an alternative to mineral oil defoamers
- Easy to incorporate
