Korea REACH–Statement

for Evonik Operations GmbH

Business Line Coating Additives (CAD)

According to Article 10 of the amendment of K-REACH, a new chemical substance (not-listed under KECl) without tonnage limit and all existing chemical substances > 1 ton/a, which are produced or imported, needed to be pre-notified until June 30, 2019 and grace periods are given for registration depending upon different tonnage bands.

For products of the above mentioned Business Line, we hereby confirm that Evonik Korea Ltd. will act as Only Representative (OR) in Korea in order to ensure supply and compliance of our products produced outside Korea under K-REACH.

Evonik Korea Ltd. has done the pre-notification of all substances contained in quantities above 1 t/y in our products marketed in Korea.

In order to support you through an OR service, we kindly ask you to provide us the following information prior importing CAD products – whether as such or as part of your products – to Korea:

- Importer information (company name, business license number, contact person, phone number, exporting country)
- Estimated annual volume (in tons) of imported CAD product
- The use of the CAD product in your system

The information can be provided to the for you region responsible regulatory guidance team address. These can be found on the last page of this document.

If you have any further questions, please feel free to contact us.

The information given above is based on and represents our current compositional knowledge (based on the knowledge of the production process, supplier information for raw materials and analytical data where applicable).

All provided information is based on our present knowledge and experience and is true and complete to the best of our knowledge and belief. However, no warranty, whether expressed or implied, or guarantee of product properties in the legal sense is intended or implied.

In case of any questions concerning the provided information or if you need additional advice you are welcome to contact us:
