

## Product Information

# Noblyst® 1008

## PRODUCT DESCRIPTION

Noblyst® 1008 is a very high loaded palladium on carbon catalyst for fixed bed applications

### Typical Properties

| Property           | Unit | Value                        |
|--------------------|------|------------------------------|
| Appearance         |      | Black cylindrical extrudates |
| Product Dimensions |      | 0.8 mm                       |
| Diameter           |      |                              |

The data represents typical values (no product specification)

## TYPICAL APPLICATIONS

Hydrogenation reactions

### Product Composition

| Product Composition    | Unit | Value |
|------------------------|------|-------|
| Palladium (Pd) Content | wt%  | 4.0   |

The data represents typical values (no product specification)

## BENEFITS & ADVANTAGES

- superior chemical reactivity and selectivity
- high palladium dispersion
- high surface area
- development of tailor-made catalysts in the context of an exclusive project possible
- full precious metal service loop

## PACKAGING

Noblyst® 1008 is supplied in 210 liter steel drums, net weight is approx. 80 kg

## STORAGE

Drums should be stored in a dry place, not be exposed to direct sunlight and be protected from freezing

## SHELF LIFE

Subject to the appropriate storage conditions, the shelf life of Noblyst® catalysts in sealed original drums is > 3 years from date of shipment.

### Disclaimer

This information and all further technical advice are based on our present knowledge and experience. However, it implies no liability or other legal responsibility on our part, including with regard to existing third-party intellectual property rights, especially patent rights. In particular, no warranty, whether express or implied, or guarantee of product properties in the legal sense is intended or implied. We reserve the right to make any changes according to technological progress or further developments. The customer is not released from the obligation to conduct careful inspection and testing of incoming goods. Performance of the product described herein should be verified by testing, which should be carried out only by qualified experts in the sole responsibility of a customer. Reference to trade names used by other companies is neither a recommendation, nor does it imply that similar products could not be used.
