

Slip and flow additive

TEGO® Effect 9305

DESCRIPTION

- TEGO® Effect 9305 is a cationic emulsion of an organo-siloxane in combination with a silicone quat.
- Particularly suitable for waterborne leather coatings.

KEY BENEFITS

- improves haptic properties
- good softening effect
- good compatibility with other additives to increase the slip in top coats
- improves easy release of the leather after ironing

TYPICAL APPLICATIONS

Leather coatings

TECHNICAL DATA

active matter content	30 %
appearance	clear liquid
chemical description	cationic emulsion of a organo-siloxane in combination with a silicon quat
delivery form	emulsion

RECOMMENDED ADDITION LEVEL

As supplied calculated on total formulation: 0.5 - 2.0 %

HANDLING & STORAGE

When stored in an original unopened packaging, the product has a shelf life of 12 months from the date of manufacture.

This information and all further technical advice are based on our present knowledge and experience. However, it implies no liability or other legal responsibility on our part, including with regard to existing third party intellectual property rights, especially patent rights. In particular, no warranty, whether express or implied, or guarantee of product properties in the legal sense is intended or implied.
